

## **RE: Water Conservation Notice Irrigation Restrictions**

To Our Valued Customers,

We are noticing increased water use due to irrigation this summer. This usage is nearing the maximum peak usage that the water system can maintain. To keep the system operating safely and efficiently, please follow the three irrigation restrictions below.

### **Irrigation Restrictions until September 30th**

- 1. Day of Week** - All yard irrigation should be limited to odd or even days based on house address number. Even address numbers irrigate on even numbered calendar days. Odd numbered addresses irrigate on odd numbered calendar days.
- 2. Time of Day** - Only irrigate between the hours of 9am to 9pm.
- 3. Duration** - Only irrigate for 1 hour.

Thank you for following these irrigation restrictions. We appreciate your support and understanding as we navigate through this summer's irrigation season.

Sincerely,  
**South Coast Water Company, LLC**
